

NTA-3NA

1. Identification

NTA-3NA; Nitrilotriacetic Trisodium

CAS Number: 5064-31-3

Molecular Formula: $C_6H_9NNa_3O_7$

Molecular Weight: 275.0995

2. Properties

MeltingPoint(°C): Not available

BoilingPoint(°C): Not available

FlashPoint(°C): Not available

RiskCodes: R22;R40;

SafetyDescription: S36/37;S45;

3. Specification

Purity	99% min
Fe	0.001% max
Heavy metal(Pb)	0.001% max
PH(2% Solution)	10.5-11.5
Appearance	White crystal powder

4. Application

NTA 3NA is mainly used in detergent industry. It is also can be used in dye-fixing agent industry and catalyst and complex agent.
