### **RHINAWAX - C 40**

RHINAWAX-C 40 - is a Homogenous-Aqueous Wax Emulsion, containing fine particles of wax held in suspension by carefully selected emulsifiers. The wax and Emulsifiers combination are specially formulated to give the characteristics required in the Emulsion.

Free flowing characteristic gives easy handling. Application can be closely controlled. High solids contents result in greater wax deposition very fine dispersion (Average particle size 1 Micron) aids woven application. Good storage stability.

#### **PRODUCT SPECIFICATION**

<b>PROPERTIES</b>	<b>SPECIFICATION</b>
Appearance	Free flowing emulsion
Color	White to Buff
Odour	Characteristic
Nature	Cationic
Base Wax	Paraffin
Total solid content	Min 40%
Water Sensitivity	Dispersible in water
Acid Sensitivity	Stable to Acids
Alkali Sensitivity	Unstable to Alkaline Solutions
Shear Stability	Good

#### **APPLICATION**

Rhinawax - C 40 is recommended for use in cement admixtures as curing additives.

#### **STORAGE & HANDLING**

Rhinawax - C 40 emulsions should not be allowed to freeze and must be stored at about 30°C. All containers should be kept closed to prevent surface evaporation and crusting of product. The containers should be protected from direct sun-light.
